

DLNR Kokee Plan Petition

We the undersigned believe the Master Plan for Kokee State Park, as presented by Department of Land & Natural Resources (DLNR), should not include a guarded gate or require payment of entry fees. We believe that the plan to remove current residents and replace them with short-term tourist rental units is not in the interest of Kauai or her people.

Kokee has always been a place of refuge and refreshment for the people of Kauai. It is a sacred place and source of forest materials needed for many Hawaiian ceremonies and celebrations. Access to Kokee should not be denied by the DLNR out of motivations of fear or profit.
